

To whom it may concern,

I was referred to Tazz of His Majesty's Electrical Services CC with the issue of a Certificate of Compliance for electrical work at my premises.

I was not happy with the way things worked on my solar installation and he was more than happy to do exactly what I wanted to be done.

When I had Earth Leakage tripping problems and called him, he was quick to respond and resolve the issues I had. He was running a few minutes late and notified me of this when he was on his way. He never charged me an arm and a leg either.

He is reliable, trustworthy and has a good attitude towards his work. He is a good electrician.

I highly recommend his services in all things electrical. I would not hesitate making use of his services in the future, if I required them.

Mr. John Quy
